TRACK BULLETIN
THURSDAY JANUARY 19, 2012**

Due to some track and operational issues on the Railroad, the Board of Directors voted to continue to operate on Run Days in the Westbound and Outside Loop configuration until further notice.

The Track Department will be working on the track issues causing this change in our normal Westbound/Eastbound operational pattern. Since Saturday is the Annual Dinner we will NOT be working track Saturday January 21st.

Run Day January 22, 2011 will be Westbound-Outside Loop.

Thank you for your understanding. Remember SAFETY FIRST!! Please approach sidewalk crossing with caution and use your whistle signals as we have many more pedestrians in the park these days.

The 4 track sidewalk crossing in Hunter Station is a very busy crossing. Safety Rule 202.d is in effect inside the entire station fence area: "SLOW SPEED AND BE PREPARED TO STOP".
